

R1 ATF Transmission Oil, 1L

Category	Transmission oil
Type	Fully synthetic transmission oil
Standards on label	ATF-III
Pack size	1L
Marks on the label	ATF

PRODUCT DESCRIPTION

R1 is a multipurpose automatic transmission fluid in a 1L tin, labelled ATF-III. It protects gears against wear, gives the friction behaviour that smooth shifting needs, and resists oxidation and physical breakdown, so it keeps working over long service intervals.

APPLICATION

- Automatic transmissions that call for an ATF-III type fluid
- Passenger cars and commercial vehicles
- Power steering units and hydraulic or mechanical systems that call for the same fluid type
- Not for systems that specify DEXRON VI, MERCON V, MERCON SP or MERCON LV fluids
- Check the handbook before topping up or changing the fluid

CUSTOMER BENEFITS

- Smooth, quiet shifting in all weather
- Keeps its low-temperature flow and film strength at high operating temperature
- Helps keep the system clean and prevents varnish formation
- Helps protect the transmission oil cooler
- Controls foam, for consistent shifting and less fluid loss when hot

MEETS SPECIFICATIONS AND REQUIREMENTS OF

- ATF-III, as printed on the label
- Suitable where an ATF-III type fluid is specified
- Always check the grade and specification in your vehicle or equipment handbook before use.

STORAGE AND HANDLING

- Store the tin indoors in its original, tightly closed container, in a cool, dry place.
- Keep it out of direct sunlight and away from heat, open flames and sources of ignition.
- Keep out of reach of children. Do not swallow, and wash hands with soap and water after contact.
- Do not mix with other oils unless the maker says they are compatible.
- Collect used oil and take it to an authorised collection point. Never pour it into drains, onto the ground or into water.

The product name, grade, type and standards on this sheet are taken from the product label. Descriptions and applications are general guidance. Always check the grade and specification required in your vehicle or equipment handbook before use.
